Part III Statement of Program Service Accomplishments

Check if Schedule O contains a response or note to any line in this Part III

- 1 Briefly describe the organization's mission:
The mission of Translators without Borders (TWB) is to provide people access to vital knowledge in their language by: Providing aid in humanitarian crisis response through translation and interpreting; providing translation and simplification services that are culturally appropriate, accessible and open-source; building language translation capacity at the local level; and raising awareness globally of language barriers.
- 2 Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ? Yes No
If "Yes," describe these new services on Schedule O.
- 3 Did the organization cease conducting, or make significant changes in how it conducts, any program services? Yes No
If "Yes," describe these changes on Schedule O.
- 4 Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. Section 501(c)(3) and 501(c)(4) organizations are required to report the amount of grants and allocations to others, the total expenses, and revenue, if any, for each program service reported.

4a (Code:) (Expenses \$ 2,013,979 including grants of \$ 0) (Revenue \$ 264,196)
Crisis Response - Words of Relief - During the fiscal year, TWB deployed its Words of Relief (WoR) humanitarian language services in Bangladesh, northeast Nigeria and the Democratic Republic of Congo (DRC). In Bangladesh, WoR provided research-based language guidance, training, and terminology support as well as audio and text translations for the Rohingya refugee response. In northeast Nigeria, TWB developed language mapping, terminology services, interpreter training, and research-based guidance on language data in the humanitarian response and language in data collection, and provided translation support to humanitarian action in support of internally displaced people and host communities. In DRC, TWB delivered a program of support to the country's 10th Ebola response, including original research and related guidance, training, advocacy and terminology support for risk communication and community engagement in the languages and formats accessible to people at risk. WoR is designed to eliminate language barriers that can impede vital response and relief efforts, by facilitating more effective two-way communication between affected populations and responders. The learning generated by research and interventions on the ground was used to raise awareness across the humanitarian sector globally of language as an underregarded factor in the reach, impact, and accountability of humanitarian action.

4b (Code:) (Expenses \$ 326,752 including grants of \$ 0) (Revenue \$ 525,504)
Other programs in Development and Preparedness - TWB development and preparedness programs provide language support for non-crisis aid programs worldwide, facilitating effective communication between humanitarian workers and the populations they serve. TWB focuses on the most vulnerable by translating life-saving information and building local language translation capacity for underserved languages or where no translation capacity exists. The development and preparedness language service program relies on TWB's custom translation environment Kató to deliver the majority of its work. Kató is a managed, crowd-sourced platform connecting the TWB community of approximately 35,000 volunteer translators and language professionals directly with non-profit partners. In 2019, TWB delivered nearly 18 million words in 140 language pairs for approximately 150 NGO partners amplifying the reach and impact of their work. TWB also advises aid organizations on the most effective approach to multilingual communication in specific contexts and develops custom workflows and technologies. Beyond written translation, TWB also provides a range of other language services including plain language editing, audio translation, localization and multimedia support (transcription, subtitling, voiceovers).

4c (Code:) (Expenses \$ 91,185 including grants of \$ 0) (Revenue \$ 0)
Gamayun, the language equality initiative combines language technology and machine learning to improve communication with people who speak marginalized languages. It builds voice and text data, integrating them into effective fit-for-purpose tools for humanitarian and development contexts. With funding from Cisco and Microsoft, TWB developed data sets in the following languages: Coastal Swahili, Congolese Swahili, Nande, Hausa, Kanuri, Tigrinya, Kurdish Kurmanji and Rohingya. A pipeline to develop neural machine translation was developed with a repository containing the necessary scripts for training and evaluating systems. These data sets, along with the machine translation models are available on the Gamayun Portal <https://gamayun.translatorswb.org/>
